SEMINAR REPORT:

ABOUT THE SEMINAR:

A Seminar is a form of academic instruction, either at an academic institution of Sri Raaja Raajan College of Engineering and Technology offered. It has the function of bringing together small groups of recurring meetings, focusing each time on some particular subject, in which everyone present is requested to participate. This is often accomplished through an ongoing Socratic dialogue with a seminar leader or instructor, or through a more formal presentation of research. It is essentially a place where assigned readings are discussed, questions can be raised and debates can be conducted.

OBJECTIVES:

- Generally organized for either a single day or couple of days, the prime objective of seminars and workshops is to assemble the likeminded intellectuals and professionals to trade ideas, thoughts and views related to a specific topic.

- To facilitate students learning and understanding about the topic.

- To identify practical learning skills and concepts that will promote students academic success.

- The purpose of a seminar is to enable students to improve their knowledge and understanding of a topic by engaging with key issues-participation is therefore necessary and successful participation involves preparation.

- Using values for your business development.

ABOUT THE COURSE
- If you are planning to learn the Sensor Networks and want to know that how to build them.
- This will give you a better understanding for the all concept.
- Better understanding the requirement for a specific technology.

SEMINAR ON SENSOR NETWORKS

- **Wireless Sensor Network (WSN)** is an infrastructure-less wireless network that is deployed in a large number of wireless sensors in an ad-hoc manner that is used to monitor the system, physical or environmental conditions.
- Sensor nodes are used in WSN with the onboard processor that manages and monitors the environment in a particular area.
- Base Station in a WSN System is connected through the Internet to share data.

SEMINAR
SENSOR NETWORKS

Seminar on Sensor Networks held on 23rd August, 2017 at Sri Raaja Raajan College Of Engineering and Technology Amaravathipudur Karaikudi.

Seminar on Sensor Networks organized by Department of Computer Science and Engineering , Sri Raaja Raajan College of Engineering and Technology. The Seminar was attended by about 50 participants who included Chief Guests, HOD's, Staff members and Students. The occasion was marked by Department of Computer Science and Engineering Sri Raaja Raajan College of Engineering and Technology Amaravathipudur, Karaikudi, 2017-18. Mr.R.Sri Janaki Raman, Assistant Professor Department of CSE , in his inaugural address appraised the participants of the efforts taken by SRRCET in Computer Science and Engineering during the year. On Resource person address Mr. K. Sasi Kumar, M.E,. He motivates the students to work both theoretically as well as practically. He also motivates the students do the project in recent technology and indicate recent technology in Sensor Networks.

After that the session the certificates are distributed to those who are attended the workshop. Finally Mr.P.Ponvasan, Assistant Professor, Department of CSE gave vote of thanks.

COURSE CONTENTS:

- How big data analytics works
- Big data analytics tools and technology
- Big benefits of big data analytics

- Making big data accessible. Collecting and processing data becomes more difficult as the amount of data grows. Organizations must make data easy and convenient for data owners of all skill levels to use.
- Maintaining quality data. With so much data to maintain, organizations are spending more time than ever before scrubbing for duplicates, errors, absences, conflicts, and inconsistencies.

- M.E. (Structural Engineering)
- M.E. (Manufacturing Engineering)
- M.E. (Power Electronics & Drives)

ABOUT THE COURSE

- If you are planning to learn Big Data Analytics and want to know that how to build them.
- This will give you a better understanding for the all concept.
- Better understanding the requirement for a specific technology.

SEMINAR ON BIG DATA ANALYTICS

- Big data analytics describes the process of uncovering trends, patterns, and correlations in large amounts of raw data to help make data-informed decisions.

- These processes use familiar statistical analysis techniques like clustering and regression and apply them to more extensive datasets with the help of newer tools.

COURSE CONTENTS:

- **Learning.** This aspect of AI programming focuses on acquiring data and creating rules for how to turn it into actionable information. The rules, which are called algorithms, provide computing devices with step-by-step instructions for how to complete a specific task.

- **Reasoning.** This aspect of AI programming focuses on choosing the right algorithm to reach a desired outcome.

- **Self-correction.** This aspect of AI programming is designed to continually fine-tune algorithms and ensure they provide the most accurate results possible.

- B.E. Civil Engineering

PG Programme

- M.E.(Computer Science & Engineering)

THE DEPARTMENT

The Department of CSE was started in the year 2010 and offers B.E degree programme. The departments has various laboratories and well-qualified and experienced faculty. The departments has MOU signed with leading companies.

ABOUT THE COURSE

Networking devices includes a broad range of equipment which can be classified as core network components which interconnect other network components, hybrid components which can be found in the core or border of a network and hardware or software components which typically sit on the connection point of different networks.

HARDWARE & NETWORKING

The most common kind of networking hardware today is a copper-based Ethernet adapter which is a standard inclusion on most modern computer systems. Wireless networking has become increasingly popular, especially for portable and handheld devices.

Other networking hardware used in computers includes data center equipment (such as file servers, database servers and storage areas), network services (such as DNS, DHCP, email, etc.) as well as devices which assure content delivery.

SEMINAR
HARDWARE AND NETWORKING

Seminar on Hardware and Networking held on 02nd December, 2019 at Sri Raaja Raajan College of Engineering and Technology Amaravathipudur Karaikudi.

Seminar on Hardware and Networking organized by Department of Computer Science and Engineering , Sri Raaja Raajan College of Engineering and Technology. The Seminar was attended by about 50 participants who included Chief Guests, HOD's, Staff members and Students. The occasion was marked by Department of Computer Science and Engineering Sri Raaja Raajan College of Engineering and Technology Amaravathipudur, Karaikudi, 2019-20. Mr.S.Aanjan Kumar , Assistant Professor Department of CSE, in his inaugural address appraised the participants of the efforts taken by SRRCET in Computer Science and Engineering during the year. On Resource person address Mr. S. Jeyakumar, M.E., He motivates the students to work both theoretically as well as practically. He also motivates the students do the project in recent technology and indicate recent technology in Hardware and Networking.

After that the session the certificates are distributed to those who are attended the workshop. Finally Mr.P.Ponvasan, Assistant Professor, Department of CSE gave vote of thanks.

Resource Person
Mr.S.Abuthakir,
Hi-Tech Systems, Madurai

COURSE CONTENTS:

- **Learning.** This aspect of AI programming focuses on acquiring data and creating rules for how to turn it into actionable information. The rules, which are called algorithms, provide computing devices with step-by-step instructions for how to complete a specific task.

- **Reasoning.** This aspect of AI programming focuses on choosing the right algorithm to reach a desired outcome.

- **Self-correction.** This aspect of AI programming is designed to continually fine-tune algorithms and ensure they provide the most accurate results possible.

RESOURSE PERSON:

Mr.S.ABUTHAKIR,

ABOUT SRRCET

SRI RAAJA RAAJAN COLLEGE OF ENGINEERING & TECHNOLOGY is a technical institution promoted by **Sri Muthumari Educational Trust**, established in the year 2010. The college is approved by All India Council of Technical Education (AICTE), New Delhi and is affiliated to Anna University, Chennai.

COURSES OFFERED

UG Programme

- B.E. Computer Science & Engineering
- B.E. Electronics & Communication Engg.
- B.E. Electrical & Electronics Engineering
- B.E. Mechanical Engineering
- B.E. Civil Engineering

PG Programme

- M.E.(Computer Science & Engineering)

THE DEPARTMENT

The Department of CSE was started in the year 2010 and offers B.E degree programme. The departments has various laboratories and well-qualified and experienced faculty. The departments has MOU signed with leading companies.

ABOUT THE COURSE

Artificial intelligence is the simulation of human intelligence processes by machines, especially computer systems. Specific applications of AI include expert systems, natural language processing, speech recognition and machine vision.

SEMINAR ON AI & ROBOTICS

Robotics is a branch of engineering that involves the conception, design, manufacture and operation of robots. The objective of the robotics field is to create intelligent machines that can assist humans in a variety of ways. Robotics can take on a number of forms.

Robotics develops machines that can substitute for humans and replicate human actions. Robots can be used in many situations for many purposes, but today many are used in dangerous environments (including inspection of radioactive materials, bomb detection and deactivation), manufacturing processes, or where humans cannot survive.
