DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING

WORKSHOP

TABLE OF CONTENTS

WORKSHOP REPORT:

ABOUT THE WORKSHOP:

- A Workshop in general, is gathering in which a group of people with interests, expertise, or professions in a particular field, are actively involved in intensive discussion and research on a specific topic or project.

- Workshops provide a chance to interact with experts from the specific field.

- Discussing about the relevant topics of the particular subject, students tend to learn about the latest information and new skills related to the concerned subject.

OBJECTIVES:

- The purpose of a workshop is to create a space in which a group of people can meet to discuss questions, brainstorm ideas, identify problems, make decisions and develop solutions.

- This space often doesn't exist in the busy schedule of day-to-day work.

- Workshops provide a chance to interact with experts from the specific field.

- Discussing about the relevant topics of the particular subject, students tend to learn about the latest information and new skills related to the concerned subject.

Mr.R.SRI JANAKI RAMAN,M.E.
HoD / CSE

COURSE CONTENTS:

➤ Analyze a complex computing problem in Java and to apply principles of computing and other relevant disciplines to identify solutions.

➤ Design, implement, and evaluate a computing- based solution to meet a given set of computing requirements in the context of the program's discipline.

➤ Communicate effectively in a variety of professional contexts.

➤ Fundamental Java programming concepts include a set of basic principles and related terminologies that programmers follow to write code that is simple to understand, modular, and efficient

ABOUT SRRCET

SRI RAAJA RAAJAN COLLEGE OF ENGINEERING & TECHNOLOGY is a technical institution promoted by **Sri Muthumari Educational Trust**, established in the year 2010. The college is approved by All India Council of Technical Education (AICTE), New Delhi and is affiliated to Anna University, Chennai.

COURSES OFFERED

UG Programme

- B.E. Computer Science & Engineering
- B.E. Electronics & Communication Engg.
- B.E. Electrical & Electronics Engineering
- B.E. Mechanical Engineering
- B.E. Civil Engineering

PG Programme

- M.E.(Computer Science & Engineering)
- M.E. (Structural Engineering)
- M.E. (Manufacturing Engineering)
- M.E. (Power Electronics & Drives)

ABOUT THE COURSE

- If you are planning to learn the Java Programming and want to know that how to build them.
- This will give you a better understanding for the all concept.
- Better understanding the requirement for a specific technology.

WORKSHOP ON JAVA PROGRAMMING

- Java is a powerful general-purpose programming language.
- It is used to develop desktop and mobile applications, big data processing, embedded systems, and so on.
- According to Oracle, the company that owns Java, Java runs on 3 billion devices worldwide,
- which makes Java one of the most popular programming languages.

ONE DAY WORKSHOP
SKILL DEVELOPMENT IN JAVA PROGRAMMING

One day Workshop on Skill Development in Java programming held on 22nd March, 2018 at Sri Raaja Raajan College Of Engineering and Technology Amaravathipudur Karaikudi.

Workshop on Skill Development in Java programming organized by Department of Computer Science and Engineering , Sri RaajaRaajan College of Engineering and Technology. The Workshop was attended by about 50 participants who included Chief Guests, HOD's, Staff members and Students. The occasion was marked by Department of Computer Science and Engineering Sri Raaja Raajan College of Engineering and Technology Amaravathipudur, Karaikudi, 2017-18. Mr.R.Sri Janaki Raman, Assistant Professor Department of CSE , in his inaugural address appraised the participants of the efforts taken by SRRCET in Computer Science and Engineering during the year. On Resource person address Mr. S. Pradeep, M.Tech, Varmaa Systems, Pudukkottai. He motivates the students to work both theoretically as well as practically. He also motivates the students do the project in recent technology and indicate recent technology in Java Programming.

After that the session the certificates are distributed to those who are attended the workshop. Finally Mrs.M.Sindhu, Assistant Professor, Department of CSE gave vote of thanks .

- M.E. (Manufacturing Engineering)
- M.E. (Power Electronics & Drives)

THE DEPARTMENT

The Department of CSE was started in the year 2010 and offers B.E degree programme. The departments has various laboratories and well-qualified and experienced faculty. The departments has MOU signed with leading companies.

ABOUT THE COURSE

HCI is the study of how people interact with computers, especially as it relates to technology design. User-centered design, UI, and UX are combined with HCI to provide intuitive technology and products.

HCI specialists consider how to develop and deploy computer systems that satisfy human users. The majority of this research focuses on enhancing human-computer interaction by enhancing how people utilize and comprehend an interface.

WORKSHOP ON HCI

- Despite the fact that it has expanded significantly since its inception, the field of human-computer interaction will keep growing as more information about users and computers is learned.

- Giving users additional options and adopting a more humane stance to accommodate people with various preferences, disabilities, and fears, new HCI methodologies are striving to personalize interaction tools and processes as much as feasible.

- Addition to the exponential growth of HCI possibilities, sign systems are adopting technologies created for phones, homes, and other personal devices more swiftly.

ABOUT THE COURSE

Mobile app development is rapidly growing. from retail, telecommunications and e-commerce to insurance, healthcare and government, organizations across industries must meet user expectations for real-time, convenient ways to conduct transactions and access information

Mobile Application Development

Mobile application development is the process of making software for smartphones, tablets and digital assistants, most commonly for the Android and iOS operating systems. The software can be preinstalled on the device, downloaded from a mobile app store or accessed through a mobile web browser. The programming and markup languages used for this kind of software development include Java, Swift, C# and HTML5.

ABOUT SRRCET

SRI RAAJA RAAJAN COLLEGE OF ENGINEERING & TECHNOLOGY is a technical institution promoted by **Sri Muthumari Educational Trust**, established in the year 2010. The college is approved by All India Council of Technical Education (AICTE), New Delhi and is affiliated to Anna University, Chennai.

COURSES OFFERED

UG Programme
- B.E. Computer Science & Engineering
- B.E. Electronics & Communication Engg.
- B.E. Electrical & Electronics Engineering
- B.E. Mechanical Engineering
- B.E. Civil Engineering

PG Programme
- M.E.(Computer Science & Engineering)

THE DEPARTMENT

The Department of CSE was started in the year 2010 and offers B.E degree programme. The departments has various laboratories and well-qualified and experienced faculty. The departments has MOU signed with leading companies.

ABOUT THE COURSE

Cloud computing is on-demand access, via the internet, to computing resources—applications, servers (physical servers and virtual servers), data storage, development tools, networking capabilities, and more—hosted at a remote <u>data center</u> managed by a cloud services provider

CLOUD COMPUTING

- The term 'cloud computing' also refers to the technology that makes cloud work. This includes some form of *virtualized IT infrastructure*servers, operating system software, networking, and other infrastructure that's abstracted, using special software, so that it can be pooled and divided irrespective of physical hardware boundaries.

- Virtualization enables cloud providers to make maximum use of their data center resources. Not surprisingly, many corporations have adopted the cloud delivery model for their on-premises infrastructure.

COURSE CONTENTS:

- Cloud lets you offload some or most of the costs and effort of purchasing, installing, configuring, and managing your own on-premises infrastructure.

With cloud, your organization can start using enterprise applications in minutes, instead of waiting weeks or months for IT to respond to a request, purchase and configure supporting hardware, and install software. Cloud also lets you empower certain users—specifically developers and data scientists—to help themselves to software and support infrastructure.

Cloud provides elasticity—instead of purchasing excess capacity that sits unused during slow periods.

ONE DAY WORKSHOP

CLOUD COMPUTING

One day Workshop on Cloud Computing held on 16th March, 2022 at Sri Raaja Raajan College of Engineering and Technology, Amaravathiputhur, Karaikudi.

Workshop on Cloud Computing organized by Department of Computer Science and Engineering, Sri Raaja Raajan College of Engineering and Technology. The Workshop was attended by about 48 students who included Chief Guests, HOD's Staff members and Students, The occasion was marked by Department of Computer Science and Engineering, Mr.S.Aanjan Kumar, Assistant Professor, Department of CSE, in his inaugural address appraised the participants of the efforts taken by SRRCET in Computer Science and Engineering during the year. On Resource person address Mr.R.Rajasekaran, GRID Labs, Karaikudi. He motivates the students to work both theoretically as well as practically. He also motivates the students do the work in real time, recent technology in Cloud Computing.

After that the session the certificates are distributed to those who are attended the workshop. Finally Mrs.V.Manju, Assistant Professor, Department of CSE gave vote of thanks.
