To

The Principal,
Mahathama College of Engineering & Technology,
Pudukkottai.

Respected Sir,

Sub: Invitation – International Conference –reg.

We are pleased to inform you that we are organizing a
**“International Conference on Recent Trends in Artificial
Intelligence, Block Chain Technologies & Internet of Things (IoT)**
in our college on **10th January, 2024, Wednesday**, to assist students
in improving and verifying their research knowledge.

We kindly requesting you to motivate and give permission to
participate students of your institution to participate in it and make
grand success. We request you to display our poster in the College
notice board.

Thanking you

ABOUT SRR CET

SRI RAAJA RAAJAN COLLEGE OF ENGINEERING & TECHNOLOGY is a technical institution promoted by **Sri Muthumari Educational Trust**, Established in the year 2010. The college is approved by All India Council of Technical Education (AICTE), New Delhi and is affiliated to Anna University, Chennai.

COURSES OFFERED

UG Programme

- B.E. Computer Science & Engineering
- B.E. Electronics & Communication Engg.
- B.E. Electrical & Electronics Engineering
- B.E. Mechanical Engineering
- B.E. Civil Engineering
- B.Tech. Agricultural Engineering
- B.Tech. Artificial Intelligence & DS

PG Programme

- M.E. Computer Science & Engineering

EVENT DESCRIPTION:

High availability of Internet of Things (IoT), there is the huge scope to still raise the Standard of Block Chain Technology, Machine learning (ML) and Deep Learning (DL), and Computational Intelligence (CI) algorithms.

ABOUT THE CONFERENCE

- To make research Artificial Intelligence technologies, Block Chain and Internet of Things (IoT) want to know that how to build them.
- This will give you a better understanding for all concept.
- Better understanding the requirement for a specific technology.

ARTIFICIAL INTELLIGENCE:

Artificial intelligence (AI), the ability of a digital computer or computer-controlled robot to perform tasks commonly associated with intelligent beings. The term is frequently applied to the project of developing systems endowed with the intellectual processes characteristic of humans, such as the ability to reason, discover meaning, generalize, or learn from past experience

INTERNET OF THINGS (IoT):

The Internet of Things (IoT) describes the network of physical objects-“things” that are embedded with sensors, software, and other technologies for the purpose of connecting and exchanging data with other devices and systems over the internet.

BLOCK CHAIN TECHNOLOGY:

Blockchain is a method of recording information that makes it impossible or difficult for the system to be changed, hacked, or manipulated. A blockchain is a distributed ledger that duplicates and distributes transactions across the network of computers participating in the block chain.
