### REPORT ON EVENT

### WORLD HEPATITIS DAY

(28<sup>TH</sup> JULY 2017)

Hepatitis A is a serious liver disease caused by the hepatitis A virus. Children with the virus often don't have symptoms, but they often pass the disease to others, including their unvaccinated parents or caregivers. These individuals can get very sick. Hepatitis A can affect anyone. Vaccines are available for long-term prevention of HIV infection in persons 1 year of age and older. Good personal hygiene and proper sanitation can also help prevent the spread of hepatitis. Children under 6 years old often have no symptoms. Older children and adults feel very sick and weak. Symptoms usually appear 2 to 6 weeks after a person gets the virus.

On 28<sup>th</sup> July 2017, a Seminar on World Hepatitis Day was organized by the Doctors from Government Hospital of Karaikudi at Sri Raaja Raajan college of Engineering and Technology . This programme was started with welcome note by the Principal, felicitation was given by Dr.V.Aruldoss. 70 students of Sri Raaja Raajan college of Engineering and Technology were taken part in this awareness session. Dr.N.Vasudevan, Chief Doctor has given special address on aims to raise awareness of hepatitis – a group of infectious diseases known as Hepatitis A,B,C,D and its prevention methods . Finally the vote of thanks was delivered by YRC Co-Ordinator.
