PROPOSAL LETTER
TO CONDUCT NATIONAL CONFERENCE

24.02.2025

From

Heads of the Department (AI&DS, CSE, ECE & EEE),
Sri Raaja Raajan College of Engineering & Technology,
Amaravathiputhur.

To

The Principal,
Sri Raaja Raaja College of Engineering & Technology,
Amaravathiputhur.

Sir,

We are willing to conduct jointly a National Conference for Research Persons, Scholars and Students on "Recent Trends in Artificial Intelligence, Green Computing and Sustainable Development" on 25th March, 2025. We kindly request you to give approval and guidance to conduct the conference in a successful manner.

Thanking you

Yours Sincerely,

HoD / AI&DS -

D. Jayath

NATIONAL CONFERENCE
RECENT TRENDS IN ARTIFICIAL INTELLIGENCE,
GREEN COMPUTING AND SUSTAINABLE DEVELOPMENT
(RTNCAGS' 2025)
ORGANIZED BY
DEPARTMENT OF AI & DS, CSE, EEE & ECE

DATE: 25-03-2025

AGENDA

TIME: 10.30 a.m.

1.	Prayer Song	
2.	Lighting the Lamp	
3.	Welcome Address	Dr.N.Rajeswari, Dean / EEE
4.	Honouring the Chief Guest	
5.	Presidential Address	Dr.S.Subbiah Chairman
6.	Inaugural Address	Dr.A.Elango Principal
7.	Felicitation Address	Dr.M.SivaKumar Dean
8.	Thematic Presentation	Mr.R.Susil Kumar, HoD/CSE
9.	Souvenir Release	
10.	Key Note Address	Mr.S.Santhosh Kumar Assistant Professor Alagappa University, Karaikudi
11.	Resource Person Address	Dr.R.Sorna Keerthi, Professor Anna University, Ramanathapuram
12.	Chief Guest Address	Dr.A.Muthumari Professor Anna University, Madurai
13.	Paper Presentation	
14.	Lunch	
15.	Paper Presentation	
16.	Certificate Distribution	
17.	Feedback by Participants	
18.	Vote of Thanks	Mrs.K.Isabella Rani, HoD/ECE
19.	National Anthem

NATIONAL CONFERENCE ON

Recent Trends in Artificial Intelligence, Green Computing and Sustainable Development

(RTNCAGS 2025)

ORGANIZED BY

DEPARTMENT OF CSE, AI&DS, ECE AND EEE

DATE: 25-03-2025	FEEDBACK FORM
<p>Please make sure that you answer these questions in such a way that, we could Improve our contribution better next time.</p>	

Please Rate Each Presentation Separately

Were the Student Paper Presentations useful?

☐ Very useful

☒ Somewhat useful

☐ Not at all useful

➤ Please explain: _____

Was the time allotted to paper presentation?

☒ Good

☐ Fair

☐ Needs improvement

➤ Comments: It's really been a good experience for all of us
and good opportunity to deliver the talent of students

About our Hospitality: Good

Any improvement areas and / or additional comments: It helps us to reduce
our stage fear and improve our knowledge by listening
others' presentation.

THANK YOU

SRI RAAJA RAAJAN

NATIONAL CONFERENCE ON

Recent Trends in Artificial Intelligence, Green Computing and Sustainable Development

(RTNCAGS 2025)

ORGANIZED BY

DEPARTMENT OF CSE, AI&DS, ECE AND EEE

DATE: 25-03-2025

FEEDBACK FORM

Please make sure that you answer these questions in such a way that, we could Improve our contribution better next time.

Please Rate Each Presentation Separately

Were the Student Paper Presentations useful?

☒ Very useful

☐ somewhat useful

☐ Not at all useful

➤ Please explain: _____

Was the time allotted to paper presentation?

☒ Good

☐ Fair

☐ Needs improvement

➤ Comments: It has been a good experience for all of us.

About our Hospitality: _____

Any improvement areas and / or additional comments: It helps us to learn some new things

THANK YOU

SRI RAAJA RAAJAN

PROGRAMME REPORT

Programme Name	National Conference
Date & Day	25 th March, 2025 & Tuesday
Time	10.30 am to 4.00 pm
Venue	Seminar Hall
Resource Persons	Dr.A.Muthumari, Professor, Anna University, Madurai
	Dr.R.Sorna Keerthi, Professor, Anna University, Ramanathapuram
No. of Researchers, Faculties and Students attended	75
Conference Organized by	Department of AI&DS, CSE, ECE and EEE

PRINCIPAL
Dr. A. ELANGO

NATIONAL CONFERENCE

RECENT TRENDS IN ARTIFICIAL INTELLIGENCE, GREEN COMPUTING AND SUSTAINABLE DEVELOPMENT (RTNCAGS 2025)

National Conference on **Recent Trends in Artificial Intelligence, Green Computing and Sustainable Development** held on **25th March, 2025** at Sri Raaja Raajan College of Engineering and Technology, Amaravathiputhur, Karaikudi.

National Conference on Recent Trends in Artificial Intelligence, **Green Computing and Sustainable Development** organized by Department Artificial Intelligence and Data Science, Department of Computer Science and Engineering, Department of Electronics and Communication Engineering, Department of Electrical and Electronics Engineering. The National Conference was attended by Research scholars, Industrialists, Faculty members and students who included Chief Guest, Resource Person, HOD's, Staff members and Students. The Presidential Address was given by Dr.S.Subbiah, Chairman, Sri Raaja Raajan Group of Institutions and Former Vice Chancellor of Alagappa University, Karaikudi insisting the opportunities in Artificial Intelligence, importance of Green computing and investment for this technology in various countries. Inaugural address by the Principal of SRRCET Dr.A.Elango, in his inaugural address appraised the participants of the efforts taken for this conference. Felicitation address by Dr.M.SivaKumar, Dean of SRRCET, felicitates the conference in way to bring new ideas to the society. Earlier Welcome address given by Dr.N.Rajeswari, Dean of Electrical and Electronics Engineering welcoming all the dignitaries, Conference Thematic presentation about Artificial Intelligence and Green computing given by Mr.R.Susil Kumar, Head of the Department, Computer Science and Engineering. **Chief Guest Dr.A.Muthumari, Professor, Anna University, Madurai** delivers the need for research in Green and Sustainable computing,

On Resource person address **Dr.R.Sornakeerthi, Profoessor, Anna University, Ramanathapuram** gave presentation about Artificial Intelligence and Green Computing and Special Guest **Dr.S.Santhosh Kumar, Alagappa Univeristy, Karaikudi** motivates the students to involve in research in recent trends.

Morethan 50 conference papers received from various Engineering Colleges, The certificate was issued to the scrutinized and selected paper.Faculties from Srilanka, Experts from various Engineering fields attend the conference along with Faculty members of various Engineering colleges , SRR CET and more than 250 students participated in this event. Finally Mrs.K.Isabella Rani, Head of the Department, Electronics and Communication Engineering gave vote of thanks.

Dr.S.Subbiah, Chairman of SRR Group of Institutions releases the Souvenir to Dr.A.Muthumari, Professor, Department of Computer Science and Engineering, Anna University, Chennai.

ஸ்ரீராஜராஜன் இன்ஜி., கல்லூரியில்

ஏ.ஐ டெக்னாலஜி தேசிய கருத்தரங்கம்

► காரைக்குடி ஸ்ரீராஜராஜன் பொறியியல் கல்லூரியில் நடந்த தேசிய கருத்தரங்கில் விழா மலரை பேராசிரியர் எஸ்.கப்பையா வெளியிட்டார்.

காரைக்குடி, மார்ச் 27: காரைக்குடி அருகே அமராவதிபுதூர் ஸ்ரீராஜராஜன் பொறியியல் கல்லூரியில் நடைமுறையில் செயற்கை நுண்ணறிவு, தகவல் தொழில் நுட்பம் மற்றும் நிலையான வளர்ச்சி என்ற தலைப்பில் தேசிய அளவிலான கருத்தரங்கம் நடந்தது. பேராசிரியர் ராஜேஸ்வரி வரவேற்றார். கல்விகுழும ஆலோசகர், முன்னாள் துணைவேந்தர் எஸ்.கப்பையா தலைமைவகித்து பேசுகையில், கருத்தரங்கு பல்வேறு துறைசார்ந்த வல்லுநர்கள் உரையாற்றும் போது மாணவர்களுக்கு அந்ததுறைகளில் ஈடுபாடு வளர்வதோடு, விடைதெரியாத பல்வேறு கேள்விகளுக்கு விளக்கம் கிடைக்கும். எனவே தான் ஸ்ரீராஜராஜன் கல்விக்குழுமத்தில் பல்வேறு தொடர் கருத்தரங்குகள் நடத்தப்பட்டு வருகிறது. தற்போது

வளர்ந்துவரும் ஏ.ஐ டெக்னாலஜி குறித்து மாணவர்கள் தெரிந்து கொள்ள இந்த தேசிய கருத்தரங்கம் ஏற்பாடு செய்யப்பட்டுள்ளது. ஏ.ஐ டெக்னாலஜியை பயன்படுத்துவது மற்றும் அத்துறையில் முதலீடு செய்வதில் சீனா முதலிடத்தில் உள்ளது. அமெரிக்கா 2வது இடத்திலும், இந்தியா 3வது இடத்திலும் உள்ளது. உலக அளவில் ஏ.ஐ டெக்னாலஜியில் 43.5 பில்லியன் டாலர் முதலீடு செய்யப்பட்டுள்ளது. இதில் சீனா மட்டும் 31.7 பில்லியன் டாலர் முதலீடு செய்துள்ளது. ஹெல்த்கேர், ஆடோ மோடிவ்துறைகளில் அதிக கவனம் செலுத்தின்றனர்.

தீர்க்க முடியாத பல்வேறு பிரச்சனைகளை மிகவும் எளிதாக தீர்க்க ஏ.ஐ டெக்னாலஜி பயன்படுத்தப்படுகிறது. இந்தியா தேவையை விட அதிகமாக இத்துறையில் முதலீடு செய்துள்ளது. நிதி

மேலாண்மை, வின்வெளி ஆராய்ச்சி, விவசாயம், டேட்டா பாதுகாப்பு, மொபைல் கேமிங் உள்பட பல்வேறு துறைகளில் பயன்படுத்தப்படுகிறது. எதிர்காலத்தில் ஏ.ஐ யின் ஆதிக்கம் அதிகமாக இருக்கும். இத்துறையில் திறன்களை வளர்த்துக் கொள்பவர்களுக்கு வேலை வாய்ப்பு அதிகமாக உள்ளது என்றார்.

கல்லூரி முதல்வர் இளங்கோ, மின் சிவக்குமார் முன்னிலை வகித்தனர். அண்ணா பல்கலைக்கழக பேராசிரியர் முத்துமாரி, முனைவர் சொர்ணகீர்த்தி, அழகப்பா பல்கலைக்கழக கணினிதுறை பேராசிரியர் சந்தோஷ்குமார், ஒருங்கிணைப்பாளர் வடிவாம்பாள் உள்பட பலர் கலந்து கொண்டனர். துணை முதல்வர் மகாலிங்கசுரேஷ் நன்றி கூறினார்.

வணக்கம் தமிழகம்

ஸ்ரீ ராஜராஜன் பொறியியல் கல்லூரியில் தேசிய கருத்தரங்கம்

காரைக்குடி: சிவகங்கை மாவட்டம் காரைக்குடி அருகே அமராவதிபுதூர் ஸ்ரீ ராஜ ராஜன் பொறியியல் கல்லூரியில் செயற்கை நுண்ணறிவு மற்றும் தரவு அறிவியல், கணினி அறிவியல் மற்றும் பொறியியல், மின் மற்றும் மின்னணு பொறியியல், மின்னணு மற்றும் தகவல் தொடர்பு பொறியியல் ஆகிய துறைகள் சார்பாக "நடைமுறையில் செயற்கை நுண்ணறிவு, பசுமை தகவல் தொழில்நுட்பம் மற்றும் நிலையான வளர்ச்சி", என்ற தலைப்பில் தேசிய கருத்தரங்கம் நடைபெற்றது.

விழாவில் ஸ்ரீ ராஜ ராஜன் கல்வி குழுமத்தின் தலைவர், அழகப்பா பல்கலைக்கழக மேனாள் துணைவேந்தருமான

முனைவர்.சுப்பையா தலைமை வகித்து உரையாற்றினார். தனது உரையில் "பசுமை தகவல் தொழில்நுட்பம்" பற்றிய தகவல்களையும் அதன் முக்கியத்துவத்தையும் எடுத்தாரைத்தார்.

கல்லூரியின் முதல்வர் முனைவர்.இளங்கோ கருத்தரங்கத்தை துவக்கி வைத்து உரையாற்றினார். தேசிய பொறியியல் கல்லூரியின் மின் முனைவர் சிவக்குமார் வாழ்த்துரை வழங்கினார். சிறப்பு விருந்தினர்களாக அண்ணா பல்கலைக்கழகம், முனைவர்.முத்துமாரி, மற்றும் பேரா.முனைவர்.சொர்ணகிர்த்தி, கலந்து கொண்டு கருத்தரங்கத்தின் முக்கியத்துவத்தை எடுத்துரைத்தனர்.

மேலும் அழகப்பா பல்கலைக்கழக கணினி துறை பேரா.

முனைவர்.சந்தோஷ் குமார் கலந்து கொண்டு சிறப்பித்தார். கணிப்பொறி துறை தலைவர் சுசில் குமார் கருத்தரங்கு பற்றிய கருத்துரை வழங்கினார்.

மின் மற்றும் மின்னணு பொறியியல் துறை மின் முனைவர். இரா ஜேஸ்வரி வரவேற்றுப் பேசினார். வெளிநாட்டு பல் கலைக்கழகங்கள் மற்றும் பல்வேறு முன்னணி பொறியியல் கல்லூரிகளில் இருந்து பெறப்பட்ட 50க்கும் மேற்பட்ட ஆய்வுக் கட்டுரைகள் சமர்ப்பிக்கப்பட்டது. அதிலிருந்து தேர்ந்தெடுக்கப்பட்ட கட்டுரைகளுக்கு சான்றிதழ்கள் வழங்கப்பட்டது.

உடன் கல்லூரியின் துணை முதல்வர் மகாலிங்க கரேஷ் மற்றும் ஒருங்கிணைப்பாளர் வடிவாம்பாள், இலங்கை பல்கலைக்கழகத்திலிருந்து பேராசிரியர்கள், பொறியியல் வல்லுனர்கள், துறைத் தலைவர்கள், கல்லூரி பேராசிரியர்கள் மற்றும் 200க்கும் மேற்பட்ட மாணவ மாணவிகள் கலந்து கொண்டு கருத்தரங்கத்தை சிறப்பித்தனர்.

இறுதியில் மின்னணு மற்றும் தகவல் தொடர்பு பொறியியல் துறை தலைவர் இசபெல்லா ராணி நன்றியுரையாற்றினார்.

MESSAGE

I am glad to know that the Department of AI&DS, CSE, EEE & ECE of Sri Raaja Raajan College of Engineering and Technology, Karaikudi, is organizing an National Conference on the title **Recent Trends in Artificial Intelligence, Green Computing and Sustainable Development** on 25th March 2025. I feel that this National Conference would help students to have interactions with experts in the field of Artificial Intelligence, Computer Science, Electrical and Electronics to enhance their knowledge.

My best wishes to all the staff and students who have taken efforts to make this National Conference a successful event.

Dr.S.SUBBIAH
Chairman
SRR Group of Institutions
Former Vice Chancellor
Alagappa University, Karaikudi.

Message

It is a great honor for me to serve as the Chief Guest for the National Conference on **“Recent Trends in Artificial Intelligence, Green Computing and Sustainable Development (RTNCAGS'2025)”** organized in collaboration with the Departments of Artificial Intelligence & Data Science, Computer Science and Engineering, Electronics and Communication Engineering and Electrical and Electronics Engineering. This conference brings together experts and scholars from diverse yet interconnected fields to address key challenges in technology and sustainability.

Artificial Intelligence and Green Computing are at the forefront of modern innovations, and their alignment with sustainable development is critical for shaping the future. By integrating the expertise from these significant engineering domains, this conference serves as a platform to explore novel solutions that will positively impact both technological progress and environmental stewardship.

I extend my heartfelt appreciation to the organizing departments for their efforts and the participants who will share their insights and research. Conferences like these play a pivotal role in fostering cutting-edge research and collaboration to drive sustainable development forward.

I am confident that this conference will generate insightful discussions and innovative ideas, helping us achieve a balance between technological advancement and sustainability. I encourage everyone to actively participate and contribute to this meaningful dialogue.

Wishing you all a successful and enriching conference experience!

A. Muthumari

MESSAGE

It is a great privilege and honor for me to serve as a Resource Person for the National Conference on **"Recent Trends in Artificial Intelligence, Green Computing and Sustainable Development (RTNCAGS'2025)"** jointly coordinated and organized by the Departments of Artificial Intelligence and Data Science, Computer Science and Engineering, Electronics and Communication Engineering, Electrical and Electronics Engineering. This National Conference brings the field experts like students, faculties, research scholars and industry people to a common forum to address a solution to the key challenges and make it useful for social and industrial real time applications.

I extend my sincere gratitude to the **Management, Principle, Teaching and Non-teaching faculties, student volunteers** who worked behind and in front to make this conference a successful one.

I wish this conference will surely focus on different innovative solutions related to the society and industrial issues. I hope everyone from different institutes and industries around India to actively participate and present their novel ideas in a common platform like this National Conference.

Wishing you a great success and a nice experience to gain innovative knowledge!

With Warm Regards,

Dr. R. SORNA KEERTHI, M.E., Ph.D.,
Assistant Professor,
Department of Electronics & Communication Engg.,
Anna University,
University College of Engineering,
Ramanathapuram - 623 513.

MESSAGE

It gives me immense pleasure to be a part of this hosting team of National Conference on **Recent trends in Artificial Intelligence, Green Computing and Sustainable Development**. The Conference intends to bring together Scientists, Engineers and Practitioners from different disciplines to discuss concerns related to various computation techniques in Science and Technology.

I take this opportunity to welcome all the delegates of the conference. On behalf of whole team, I would like to thank all the authors, sponsors and keynote speakers for their support and co-operation.

Dr.A.ELANGO
Principal
SRRCET, Karaikudi

MESSAGE

I am extremely happy to know that a National Conference on the Title **Recent trends in Artificial Intelligence, Green Computing and Sustainable Development** is organized on 25th March, 2025. I wish to congratulate the AI&DS, CSE, EEE & ECE Department for taking the effort in organizing the Conference

I wholeheartedly congratulate the AI&DS, CSE, EEE & ECE departments on their outstanding efforts in organizing the National Conference. This project demonstrates their commitment to encouraging innovation and providing students, with cutting edge information. This lecture, which delivers into AI, IoT, Cloud computing and Machine learning, acts as a catalyst for intellectual development and technological success. Such initiatives not only improve students skills, but also inspire their desire to shape the future of technology. Congratulations to everyone involved in making this event a huge success

My best wishes for the National Conference

Dr.M.SIVAKUMAR
Dean
SRR CET

MESSAGE

Greetings!!!

A warm welcome to the National Conference in **Recent Trends in Artificial Intelligence, Green computing And Sustainable Development(RTNCAGS'2025)** to facilitate the exchange of knowledge in the rapidly evolving fields of engineering and technology. The purpose of this conference is not only to present the latest research and innovations but also to engage in meaningful dialogue that bridge the gap between Academia, Industry and Government.

I firmly believe that collaboration is the key to unlocking the full potential of emerging technologies. By working together, we can address the complex issues that lie ahead and progress in a way that benefits society at large

I congratulate the AI&DS, CSE, EEE and ECE departments for their hard work and dedication in organizing the National Conference

Mr.K.C.PALANIVELU
Staff Development Officer
SRRCET

MESSAGE

Greetings!!!

A warm welcome to the National Conference in **Recent Trends in Artificial Intelligence, Green computing And Sustainable Development(RTNCAGS'2025)** . I hope this event fosters valuable discussions and collaborations.

It gives opportunity to learn from each other, share our experiences and forge strong partnerships. Together we can make a positive impact on Artificial Intelligence.

I congratulate the AI&DS, CSE, EEE and ECE department staff members and students for their involvement in this conference.

I wish you all a productive and enriching conference.

Mr.V.MAHALINGA SURESH
Vice Principal
SRR CET

MESSAGE

Dear Professors and Researchers,

"The difference between the impossible and the possible lies in a person's determination."

TOMMY LASORDA

Being literate is only one aspect of education. The value of knowledge is revealed in the glimmering hues that brighten our life. With these words, I formally welcome you all to the National Conference on Recent Trends in Artificial Intelligence, Green Computing and Sustainable Development (RTNCAGS 2025).

As the convener of this conference, it is my pleasure to extend a warm invitation to you to participate in this prestigious event.

At RTNCAGS 2025, we are dedicated to providing a platform where interdisciplinary connections flourish, groundbreaking ideas are exchanged, and collaborations thrive. Our aim is to facilitate dialogue and foster innovation in the realm of recent trends in the field of Artificial Intelligence, Computer Science, Electronics and Communication, Electrical and Electronics Engineering.

I am confident that you will enjoy a motivating conference and I know that your presence and participation will add to the fervor surrounding the subject and improve discussions, fostering new ideas and partnerships.

I wish that RTNCAGS will keep on growing in coming years with more impact on the National and International research community.

I want to thank in advance for the support of all the speakers, participants, organizing committee, sponsors and other contributors for their sparkling efforts and their belief in the excellence of RTNCAGS 2025.

Best Wishes,

**Dr. N. Rajeswari,
Convener.**

MESSAGE

My warm wishes and Greetings to all of you,

It gives immense pleasure and satisfaction to see such an enthusiasm and dedication in scholars to take initiative of technologies through research conference being organized by Department of AI&DS, CSE, ECE and EEE. I thank each of the participants personally for their sincere response and to give best possible and practical way.

I hope that the National conference **RTNCAGS 2025**.will help all the Scholars, Faculty members, Researchers and students to exchange their technical knowledge and information in the field of Artificial Intelligence and Computer Science and Engineering. Kindly utilize this event to enhance the knowledge. I wish you all the best in all your endeavors in future.

I convey my sincere thanks to our beloved Chairman, “**Dr.S.Subbiah.**, Principal **Dr.A.Elango** and our Dean **Dr.M.Siva Kumar** for extended support to organize this National Conference **RTNCAGS 2025**.

I whole heartedly thank all the staff members and students of Computer Science & Engineering for their cooperation and support for making this conference as a exceptional event.

Mr. R. SUSIL KUMAR, M.E.,
Head of the Department
COMPUTER SCIENCE & ENGINEERING

MESSAGE

Greetings to all of you,

It is great pleasure and pride that I extend my warmest greetings to all participants, speakers and distinguished guests attending the **Recent Trends in Artificial Intelligence, Green Computing and Sustainable Development (RTNCAGS'2025)** organized by the AI&DS, CSE,ECE & EEE at SRRCET. This conference serves as a dynamic platform for academicians, researchers and industry professionals to exchange ideas, present innovations and explore the latest technologies.

In today's rapidly evolving technological landscape, collaboration and knowledge sharing are essential for progress. This conference provides an opportunity to foster interdisciplinary discussions, encourage research driven solutions, and bridge the gap between academic and industry. I commend the organizing committee, faculty members and students for their dedication in making this event a success.

I encourage all participants to engage actively, network with experts, and take away valuable insights that will contribute to their academic and professional growth.

I convey my sincere thanks to our **Chairman Dr.S.Subbiah, Principal Dr.A.Elango, M.E., Ph.D, Dean Dr.R.Sivakumar, Ph.D** for extend support to organize this conference.

I extend my sincere gratitude to all HOD's ,Staff members and Students of AI&DS, CSE, ECE & EEE.

Wishing you all an enlightening and fruitful experience at **RTNCAGS'2025**.

**Mrs.D.SUJATHA, M.E.,
Head of the Department
ARTIFICIAL INTELLIGENCE & DATA SCIENCE**

MESSAGE

My warm wishes and greetings to all of you,

The National Conference was conceived about a month ago. We are pleased to note that the response was highly encouraging from different institutions. I thank each of the participants personally for their sincere response.

I hope that the conference will help all the students to exchange their technical views and information in the field of Engineering. Kindly utilize this event to enhance the knowledge. I wish you all the best in all your endeavors in future.

I convey my sincere thanks to our beloved Chairman, “**Dr.S.Subbiah.,** Principal **Dr.A.Elango** and our Dean **Dr.M.Sivakumar** for extended support to organize this Conference.

I whole heartedly thank all the staff members and students of Electronics and Communication Engineering for their cooperation and support for making this National Conference as a special event.

“Inspiration is one thing & you can’t control it but hard work is what keeps the ship moving. Good luck means work hard. Keep up the good work”

Mrs. K. ISABELLA RANI, M.E.,
Head of the Department
Electronics and Communication Engineering
SRRCET.

MESSAGE

It is with great pleasure and enthusiasm that I welcome you all to the National conference on “Recent Trends in Artificial Intelligence, Green Computing and Sustainable Development”, organized by the Department of AI&DS, CSE, ECE, EEE. This National conference serves as a vibrant platform to share innovative ideas, recent advancements, and emerging trends in the field of Electrical and Electronics Engineering.

The rapid advancements in technology have transformed the way we perceive and utilize Electrical and Electronic systems. As we navigate through this area of smart grids, Artificial Intelligence, Sustainable energy solutions, and Automation, it is imperative to foster collaboration and innovation.

I convey my sincere thanks to our Chairman, “**Dr.S.Subbiah.**, Principal **Dr.A.Elango.**, and our Dean **Dr.M.Sivakumar**, for extended support to organize this National conference.

I extend my heartfelt gratitude to all the distinguished Speakers, Paper presenters, Participants and Committee members who have contributed to making this event a success. Your dedication and enthusiasm are the driving forces behind the growth and progress of our field.

I encourage all attendees to actively participate, exchange ideas, and make the most of this opportunity. Let us work together to push the boundaries of knowledge and innovation for a sustainable and technologically advanced future.

I wish you all a productive and enriching conference.

Mrs. P.SHEEBA, M.E.,

Head of the Department
Electrical and Electronics Engineering

Tamper Proof Blockchain Enabled Online Voting System

Ms.Priyanga B^{#1}, Ms.Mahalakshmi M^{*2}, Ms.Priyashakhi R^{*3}

Ms.Subalakshmi S^{*3}

¹priyangabalaji2021@gmail.com,²mmahalakshmi1216@gmail.com,³

priyashakhi3@gmail.com,⁴subalakshmi.s3103@gmail.com

Abstract — The emergence of Block Chain technology presents significant potential for enhancing the security, transparency, and efficiency of online voting systems. This paper proposes a Block chain-enabled online voting system incorporating a consortium block chain, hashing techniques, and biometric verification, including fingerprint and facial recognition, to ensure a secure and tamper-proof electoral process. The consortium block chain offers a controlled, permissioned environment where trusted participants can validate transactions, reducing the risk of fraud and enhancing accountability. Hashing algorithms are employed to guarantee the integrity and immutability of votes cast, making it nearly impossible for data to be altered without detection. Biometric verification methods, such as fingerprint and facial recognition, are integrated to authenticate voters' identities, ensuring that only authorized individuals can participate in the election. This combination of block chain, cryptographic hashing(SHA) and biometric authentication provides a robust solution for secure and transparent online voting, minimizing risks such as voter impersonation, vote tampering, and election fraud. The proposed system represents a significant step towards the digitalization of elections, offering an innovative solution to modernize electoral processes while maintaining trust and reliability.

^{#}Department of Computer Science and Engineering,*

[#]Assistant Professor, ^{}UG Scholars,*

SACS MAVMM Engineering College, Madurai

*¹divyarajan090@gmail.com,² meghanamurugan1986@gmail.com,³ inirah27@gmail.com ,
⁴kavip7119@gmail.com*

Abstract — Climate change poses a significant threat to the global food supply by altering weather patterns, reducing agricultural productivity, and disrupting food distribution systems. Rising global temperatures lead to increased evaporation, changes in precipitation patterns, and extreme weather events such as droughts, floods, and storms, all of which negatively impact crop growth and yield. These climatic changes also degrade soil fertility, reduce water availability, and lead to shifting pest populations and increased disease outbreaks, further straining food production. Fisheries and aquaculture are affected by ocean acidification and rising sea temperatures, reducing fish stocks and threatening marine biodiversity. To mitigate these impacts, there is a growing need for climate-resilient agricultural practices, such as precision farming, drought-resistant crop varieties, and improved irrigation techniques. Sustainable resource management, international policy cooperation, and investment in research and innovation are essential to ensuring a stable and secure food supply for the increasing global population. Addressing climate change through sustainable practices and adaptive strategies will be key to safeguarding global food security in the coming decades.

AI Driven Hybrid Intrusion Detection System: Leveraging Machine Learning for Advanced Network Security

Mrs.Divya M^{#1}, Mr.Ganesh Kumar S^{*2}, Ms.Sudharsan T^{*3}

Mr.Suryaprakash G^{*3}

^{#}Department of Computer Science and Engineering,*

[#]Assistant Professor, ^{}UG Scholars,*

SACS MAVMM Engineering College, Madurai

Abstract — Cyber Security threats have become increasingly sophisticated, making traditional intrusion detection systems (IDS) inadequate in identifying and mitigating advanced attacks. This project presents an AI Hybrid Intrusion Detection System (HIDS) that leverages machine learning techniques to enhance threat detection capabilities. The proposed system integrates XG Boost and Logistic Regression to classify network traffic as benign or malicious with high accuracy and efficiency. The system employs feature engineering and selection to improve model performance while minimizing computational overhead. XG Boost is utilized for its ability to handle complex, high-dimensional data, while Logistic Regression ensures interpretability in decision-making. The hybrid approach leverages the strengths of both models, improving detection rates and reducing false positives compared to conventional methods. The project also explores real-time deployment possibilities, scalability in cloud environments, and integration with existing security infrastructures. Experimental results demonstrate that the hybrid AI-based IDS significantly outperforms traditional rule-based and single-model approaches in identifying cyber threats. This research contributes to advancing intelligent cyber Security solutions, making networks more resilient to evolving cyber threats.

Keywords – Hybrid Intrusion Detection System, Machine Learning, Regression

Intelligent Fish Localization for Reduced Fuel Consumption and Improved Catch Rates

ABSTRACT:

The angling industry faces challenges related to fuel utilization and wasteful angle capture strategies. Cleverly Angle Localization (IFL) leverages progressed profound learning and inaccessible detecting innovations to upgrade angling effectiveness whereas decreasing natural affect. This paper investigates the integration of counterfeit insights (AI) with adj. imaging and sonar-based angle following for optimizing angling courses. The proposed framework comprises of three key components: (1) A angle discovery and classification show utilizing convolutional neural systems (CNNs) to analyze sonar and lackey symbolism, (2) a prescient development demonstrate utilizing repetitive neural systems (RNNs) to expect angle movement designs based on authentic and real-time information, and (3) a fuel optimization system utilizing support learning calculations to compute the foremost proficient angling courses. By combining these components, IFL minimizes pointless fuel consumption and increments the likelihood of effective capture operations. Exploratory comes about illustrate a noteworthy lessening in fuel utilization, with watched 25-30 crease, nearby a 40% change in capture rate exactness. The proposed framework offers a adaptable, data-driven approach to maintainable angling hones, lessening biological affect whereas maximizing financial effectiveness. Future investigate bearings will center on upgrading real time flexibility and growing the dataset scope to incorporate different marine situations.

ABSTRACT:

Micro-rovers, Small robotic vehicles designed for planetary exploration, offer a promising solution for lunar surface missions. Their compact size, energy efficiency, and lightweight design enable them to conduct scientific research in environments with extreme temperature fluctuations, rugged terrain, and reduced gravity. Equipped with advanced sensors, cameras, and communication systems, micro-rovers can capture high-resolution images, analyze soil and mineral compositions, and map out terrain to support larger missions. They are especially advantageous in scouting potential sites for human settlement, assessing lunar resources, and contributing to a deeper understanding of lunar geology and potential for in-situ resource utilization. This paper discusses the technological challenges and advancements in micro-rover systems, including innovations in autonomy, mobility, and power management, and explores their critical role in supporting long-term lunar exploration objectives.

ABSTRACT

The criminal record maintenance is sensitive and crucial task in forensics department. The crime records are stored in a huge data set; it can be stored, maintained and traced every day. The objective of this project is to store criminal and crime information safely. In Existing, Cryptographic-based encryption is to encrypt data into unreadable code; it is more likely to attract the attacker's attention. Once these cipher text is intercepted, the attacker will try to decrypt these cipher text to obtain some useful information, so as to carry out some illegal activities. Some health care information not only have high requirements for privacy protection, but also want to be able to express their preference in the decision-making of privacy protection, so they may want to define what information is sensitive to them and what is not. The proposed model can classify the data into sensitive data and non-sensitive data according to the user's preferences with SVM (Support Vector Machine) based machine learning classification. Since non-sensitive data pose no threat to user privacy, it can be transmitted directly on ordinary channels without being processed. While, sensitive data need to be processed before it can be transmitted. In terms of sensitive data processing, here proposes a method of combining data encryption with information hiding. Sensitive data are encrypted using Advanced Encryption Standard (AES) encryption algorithm before it can be transmitted, making it to unreadable code. Then, a novel information hiding method proposed, named the Integer Wavelet Transformation (IWT) information hiding method is used to provide a second guarantee for the security of sensitive data. In other words, the sensitive information is hidden in the multimedia carrier, so that the adversary cannot notice the existence of sensitive information.

^{}UG Scholar,*

GKM College of Engineering and Technology, Chennai

ABSTRACT:

Diabetic retinopathy is a common and serious complication of diabetes, characterised by damage to the blood vessels in the retina due to prolonged elevated blood sugar level. As one of the leading causes of blindness in adults, early detection and timely intervention are crucial to prevent vision loss. Hence this project proposes a revolutionizing diabetic retinopathy diagnosis through attention- DCNN (Deep Convolutional Neural Network) for blindness prevention. The proposed method begins with the input of retinal images, which undergo preprocessing using an adaptive gaussian filter to enhance image quality and reduce noise. Subsequently, K - means segmentation is employed to isolate region of interest, facilitating more accurate feature extraction. The multiscale Gray level co-occurrence matrix (GLCM) techniques is then utilized for feature extraction, capturing intricate patterns within the segmented images. Finally, the extracted features are classified using the attention - DCNN model, which emphasizes critical areas in the images, improving prediction accuracy. This integrated approach not only enhances the robustness of diabetic retinopathy diagnosis but also provides reliable predictive output that aids healthcare professional in making informed decision. The effectiveness of this method is validated through comprehensive experiments, demonstrating significant improvements in detection rates and classification accuracy compared to conventional techniques. This project is implemented by using python language.

ABSTRACT

Presently, process analytics extracts the knowledge from the past data to explore, monitor, and improve the processes. The recently developed deep learning (DL) models find it helpful to analyse medical data and make decisions. Among various diseases, type 2 diabetes mellitus (T2DM) becomes a widespread disease over the globe and it leads to severe outcomes. Chronic kidney disease (CKD) and coronary heart disease (CHD) are the major illness occurred in people with T2DM. Since the earlier prediction of the risk factors related to CKD and CHD on T2DM persons is necessary, this study focuses on the design of intelligent feature selection with deep learning based risk factor prediction (IFS-DLRFP) model. The proposed IFS-DLRFP technique intends to determine the early warning to the patients with T2DM to develop CKD or CHD. In addition, the IFS-DLRFP technique includes the design of fruit fly optimization algorithm (FFOA) based feature selection technique to choose an optimal set of features. Moreover, firefly optimization with gated recurrent unit (FF-GRU) based classification technique is derived to allocate appropriate class labels to the input data.

Magnetic Powered Mini Drones for Smart IoT Driven Agricultural Solutions

Ms.K.Isabella Rani

**Assistant Professor, Department of Electronics and Communication Engineering
Sri Raaja Raajan College of Engineering and Technology, Karaikudi**

ABSTRACT

This paper explores the integration of magnetic-powered mini drones with the Internet of Things (IoT) for enhanced agricultural solutions. By leveraging cutting-edge drone technology and IoT connectivity, the proposed system aims to address challenges such as crop monitoring, pest management, and precision agriculture. The study investigates the potential benefits of magnetic propulsion systems in mini drones, particularly in terms of energy efficiency, flight stability, and sustainability. The paper also outlines the implementation of a smart IoT framework for real-time data collection, analysis, and decision-making. The results highlight the viability of these technologies in revolutionizing the agricultural landscape, offering farmers more precise, scalable, and environmentally friendly solutions.

Abstract— Apart from causing tragic loss of lives and valuable natural and individual properties including thousands of hectares of forest and hundreds of houses, forest fires are a great menace to ecologically healthy grown forests and protection of the environment. Every year, thousands of forest fire across the globe cause disasters beyond measure and description. Forest and urban fires have been and still are serious problem for many countries in the world. Currently, there are many different solutions to detect the forest fires. People are using sensors to detect the fire. In this paper, we discuss a new approach for fire detection, in which modern technologies are used. In particular, we propose a platform that Artificial Intelligence based KNN algorithm. The computer vision methods for recognition and detection of smoke and fire, based on the still images or the video input from the cameras. The accuracy is based on the algorithm which we are going to use and the datasets and splitting them into train set and test set. Data has been collected from various sources and have been merged. At every stage of pre-processing, a Logistic Regression has been used.

A Review of Machine Learning for Big data processing

Ms.M.Jothi

**Assistant Professor, Department of Computer Science,
J.J. College of Arts and Science (Autonomous), Pudukkottai.**

Abstract

There is no doubt that big data are now rapidly expanding in all science and engineering domains. While the potential of these massive data is undoubtedly significant, fully making sense of them requires new ways of thinking and novel learning techniques to address the various challenges. In this paper, we present a literature survey of the latest advances in researches on machine learning for big data processing. First, we review the machine learning techniques and highlight some promising learning methods in recent studies, such as representation learning, deep learning, distributed and parallel learning, transfer learning, active learning, and kernel-based learning. Next, we focus on the analysis and discussions about the challenges and possible solutions of machine learning for big data. Following that, we investigate the close connections of machine learning with signal processing techniques for big data processing. Finally, we outline several open issues and research trends.

Department of ECE

Mookambigai College of Engineering, Pudukkottai

ABSTRACT

The rise in the emphasis on oral diseases has elevated the need to automate the diagnostic process of such diseases. Fortunately, the availability of modern computing devices has made the automated diagnosis of teeth readily possible using deep learning. Despite this, concerns about the accuracy and function of automated diagnosis remain among patients. Accurate and timely diagnosis of dental abnormalities is crucial for effective treatment planning. Orthopantomogram (OPG) radiographs are widely used in dental practice to visualize the entire dentition and surrounding structures. However, manual interpretation of OPG images can be time-consuming and prone to human error. This paper proposes a hybrid transfer learning approach leveraging the power of deep learning to automate the diagnosis of dental abnormalities from OPG images.(1)A direct classification approach and (2) a hybrid approach that combines a deep learning model with a traditional classifier. The results revealed that all ten chosen deep learning models experienced a similar or improved performance when used in conjunction with a machine learning classifier. In particular, Vision Transformer (ViT) performed the best with a record accuracy of 96% using both the direct and hybrid approaches. The proposed approach utilizes the Alex Net architecture, a well-established convolutional neural network (CNN) model, as the backbone. To enhance the model's performance and reduce training time, transfer learning is employed. The pre-trained Alex Net model, trained on the Image Net data set, is fine-tuned on a data set of OPG images with annotated dental abnormalities.
