Educational Visit to Chettinad Vintage Car and Camera Museum

A total of 310 students and 5 faculty members from Sri Raaja Raajan College of Engineering and Technology (SRR CET), Amaravathipudur, Karaikudi, visited the Chettinad Vintage Car and Camera Museum as part of an educational and heritage awareness program.

The visit aimed to provide students with a broader understanding of technological evolution and the preservation of historical artifacts. The museum, renowned for its extensive collection of vintage cars, cameras, and other antiques, offered students a glimpse into the mechanical and optical advancements of earlier centuries.

During the tour, students had the opportunity to observe rare and classic automobiles, including models that once graced Indian roads during the pre- and post-independence eras. The diverse camera collection also fascinated the visitors, showcasing the transformation of photography equipment—from early film cameras to advanced modern lenses.

Faculty members accompanying the students explained the engineering principles behind these vintage machines, connecting their historical significance with modern-day innovations in automobile and imaging technologies.

The trip proved to be both educational and inspiring, enriching students' practical knowledge while deepening their appreciation for technological progress and cultural heritage.

Overall, the trip to Pillaiyarpatti was both educational and enjoyable. The students expressed their happiness and said that it was fascinating to see how much technology has developed today compared to the past. It was truly a day of learning and fun for all the first-year students.

Enriching educational visit to the pillaiyarpatti old car museum

Enriching educational visit to the pillaiyarpatti old car Museum, where they learned about the remarkable development of automotive technology over the years.
