## “ACADEMIC AUGMENTATION THROUGH AUTONOMOUS”

In this Programme, the Resource Person talked about the benefits of Autonomous status, modification of Academic Courses and Syllabus, innovatively keeping Anna university syllabus as base. He insisted to give importance to the following areas while framing the Courses / syllabus with due credits to develop Practical Engineers:

- Industry linked courses,
- Placement Training,
- Skill Development Programmes,
- Participation of On-line Courses,
- Activities at Centre of Excellence and Incubation Centre
- Mini-projects, etc.

He also talked about the “Blooms Taxonomy”. The Programme was informative, interactive, and beneficial to all the Faculties, enabling them to contribute more effectively to academic development in autonomous process.
